## EXPERIENCE

### UI/UX DESIGNER & DEVELOPER
DFUZR INDUSTRIES // 2014-PRESENT

Front-end development and UX design for various projects, including SaaS platforms, marketing websites, microsites, email templates, and interactive infographics

Collaborate with client-side teams to ensure seamless integration

Adapt to and use various technology stacks depending on the project (e.g., HubSpot, AEM, Angular.js, React, etc.)

CLIENTS I WORK WITH:

Twitter, First Data, Telespine, ManagedMethods, GutCheck

### DIGITAL PRODUCER
TAPINFLUENCE (FORMERLY BLOGFROG) // 2011-2014

UI/UX design for the SaaS platform, which included meeting with stakeholders, brainstorming, wireframes, and hi-fidelity mockups within a 2-week sprint schedule

Front-end development for custom development projects and widgets (HTML/CSS/Javascript)

Created templates for productization of microsites and dynamic widgets

Design and technical delivery of one-page microsites, dynamic widgets, and other custom projects for over 150 brands and agencies

Balanced a waterfall workflow for clients and a one-week Agile sprint schedule for the platform

CLIENTS I WORKED WITH:

B2B and B2C brands and agencies, such as Hidden Valley Ranch, King's Hawaiian, Microsoft, Quaker, Kraft, Udi's Gluten Free, and Black Box Wines

### WEB DESIGN INTERN
REGIONAL TRANSPORTATION DISTRICT // 2010

Designed page layouts for RTD's website and created marketing materials for screen and print, ranging from brochures to a screensaver.
First introduction to an end-to-end design and development process.
